*"FurBulous is my #1 choice for a Certified Organic canine shampoo. I had my groomer use it on Little One, a Maltese. His fur was never whiter—it was dazzling! There was no itching after his "shampoo & tidy", and I will be using this product indefinitely. It's pure and it shows you care about your pet."*

*Pam says that Little One is definitely a spa dog now that he uses FurBulous Dog.*

*"He is your great white fan!"*

### Mar's 2009 Must Haves

Every year around this time I ponder and prepare myself to review and consider what will make my Top Five "Must Haves." Sometimes I know far in advance of the end of the year, and this year's top five were clearly candidates the moment I discovered them. To become a "Must Have" contender each item has to enrich my life and offer something worthy of the price you pay and the benefits they bring.

### FurBulous Dog

This one is a treat for you and your dog. A new USDA certified organic dog shampoo made up of a blend of essential oils, Aloe Vera, and Rosemary Extract. It has NO artificial ingredients, chemicals or detergents. Both Violet and I loved it the moment we tried it. Finally, a safe and non-toxic alternative to detergent and chemical cleaners. Without laureth sulphate to create suds, FurBulous Dog has an ingenious self-foaming pump. So it's safer for Violet and much, much faster for me since the shampoo is quickly and easily distributed over her coat, rinses out in a snap, and there are no "clumps" of shampoo (you could always tell where I started with old-style shampoos because I had to pay extra attention to that area when rinsing out.) FurBulous Dog meets all USDA Organic Food Standards so it's a big deal to have such an amazing product available for my Schnauzer. Once you use this easy pump shampoo you notice the difference and the fresh clean smell your dog will have for days. FurBulous is Fabulous and I have the great smelling dog to prove it.
